El agua es la esencia de la vida

El agua es un bien fundamental para la vida y el planeta, pero también un recurso escaso y limitado cuyo consumo va en aumento. Estamos acostumbrados a verla correr y, hasta hace poco, se creía inagotable. Sin embargo, hoy sabemos que la mayor parte del agua de la Tierra es salada o se encuentra en forma de casquetes polares o glaciares, y solo una pequeña parte es útil para los procesos vitales del planeta. De modo que para su conservación en el futuro se necesita una actitud responsable diaria y una mayor conciencia ambiental de cada uno de nosotros. Podemos soñar con un futuro más sostenible, pero para que este sueño se haga realidad debemos empezar desde el presente. Desde hoy.

Water is the essence of life

Water is an essential resource for life and for the planet. At the same time, water is also scarce and limited. In our minds, water is always running, and until recently, it was thought to be in endless supply. However, its usage is increasing. Today we know that most of the water on Earth is salt water, or is found in the form of glaciers or ice caps, and only a small part is usable for the planet's vital processes. Therefore, to conserve water for the future, each and every one of us needs to have a responsible attitude towards it, as well as greater environmental awareness. We can dream about a more sustainable future, but in order to make this dream a reality, we have to start now. Starting today.

La principal característica es el ahorro de energía. Al abrir el grifo en su posición central, saldrá solo agua fría, el agua caliente no saldrá mientras no giremos la maneta hacia la izquierda. Nuestro sistema Kelogic evita que su caldera o calentador se ponga en marcha innecesariamente.

Cold start, Kelogic

The main advantage of this series is energy savings. When you open the tap from its central position only cold water is used, and hot water only flows when the level is moved to the left. Energy is saved because our Kelogic system switches on the water heater only when necessary.
